

CONMED Corporation Announces First Quarter Financial Results

April 28, 2021

LARGO, Fla.--(BUSINESS WIRE)--Apr. 28, 2021-- **CONMED Corporation (NYSE: CNMD)** today announced financial results for the first quarter ended March 31, 2021.

First Quarter 2021 Highlights

- Sales of \$232.7 million increased 8.7% year over year as reported and 7.2% in constant currency.
- Domestic revenue increased 4.3% year over year.
- International revenue increased 14.3% as reported year over year and 10.8% in constant currency.
- Diluted net earnings per share (GAAP) were \$0.31, an increase of 55.0% over the first quarter of 2020.
- Adjusted diluted net earnings per share⁽¹⁾ were \$0.63, an increase of 23.5% over the first quarter of 2020.

"I am very pleased by our first-quarter performance, which is a direct result of our team's continued perseverance through a difficult operating environment," commented Curt R. Hartman, CONMED's Chair of the Board, President, and Chief Executive Officer. "I believe that CONMED is well-positioned to capitalize on an improving surgical landscape over the course of this year, and I am confident in our team's ability to provide innovative solutions that will benefit both our customers and the patients in their care."

2021 Outlook

Based on the first quarter results, the Company is increasing its guidance for full-year 2021 and now expects revenue between \$1.0 billion and \$1.03 billion, compared to its prior guidance of between \$975 million and \$1.02 billion. Based on recent exchange rates, the positive impact to 2021 sales from foreign exchange is now expected to be in the range of 50 to 100 basis.

The Company now expects full-year 2021 adjusted diluted net earnings per share in the range of \$3.05 to \$3.20, compared to its prior range of \$2.85 to \$3.05.

Supplemental Financial Disclosures

(1) A reconciliation of reported diluted net earnings per share to adjusted diluted net earnings per share, a non-GAAP financial measure, appears below.

Forward-Looking Statements

This press release and today's conference call may contain forward-looking statements based on certain assumptions and contingencies that involve risks and uncertainties, which could cause actual results, performance, or trends to differ materially from those expressed in the forward-looking statements herein or in previous disclosures. For example, in addition to general industry and economic conditions, factors that could cause actual results to differ materially from those in the forward-looking statements may include, but are not limited to, the risks posed to the Company's business, financial condition, and results of operations by the COVID-19 global pandemic and the various government responses to the pandemic, including deferral of surgeries, reductions in hospital and ambulatory surgery center operating volumes, disruption to potential supply chain reliability, as well as the risk factors discussed in the Company's Annual Report on Form 10-K for the full year ended December 31, 2020. Any and all forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and relate to the Company's performance on a going-forward basis. The Company believes that all forward-looking statements made by it have a reasonable basis, but there can be no assurance that management's expectations, beliefs or projections as expressed in the forward-looking statements will actually occur or prove to be correct.

Supplemental Information - Reconciliation of GAAP to Non-GAAP Financial Measures

The Company supplements the reporting of its financial information determined under accounting principles generally accepted in the United States (GAAP) with certain non-GAAP financial measures, including percentage sales growth in constant currency; adjusted gross profit; cost of sales excluding specified items; adjusted selling and administrative expenses; adjusted operating income; adjusted interest expense; adjusted income tax expense (benefit); adjusted effective income tax rate; adjusted net income, adjusted diluted shares and adjusted diluted net earnings per share (EPS). The Company believes that these non-GAAP measures provide meaningful information to assist investors and shareholders in understanding its financial results and assessing its prospects for future performance. Management believes percentage sales growth in constant currency and the other adjusted measures described above are important indicators of its operations because they exclude items that may not be indicative of, or are unrelated to, its core operating results and provide a baseline for analyzing trends in the Company's underlying business. Further, the presentation of EBITDA is a non-GAAP measurement that management considers useful for measuring aspects of the Company's cash flow. Management uses these non-GAAP financial measures for reviewing the operating results and analyzing potential future business trends in connection with its budget process and bases certain management incentive compensation on these non-GAAP financial measures.

Net sales on a constant currency basis is a non-GAAP measure. The Company analyzes net sales on a constant currency basis to better measure the comparability of results between periods. To measure percentage sales growth in constant currency, the Company removes the impact of changes in foreign currency exchange rates that affect the comparability and trend of net sales. To measure earnings performance on a consistent and comparable basis, the Company excludes certain items that affect the comparability of operating results and the trend of earnings. These adjustments are irregular in timing, may not be indicative of past and future performance and are therefore excluded to allow investors to better understand underlying operating trends.

Because non-GAAP financial measures are not standardized, it may not be possible to compare these financial measures with other companies' non-GAAP financial measures having the same or similar names. These adjusted financial measures should not be considered in isolation or as a substitute for reported sales growth, gross profit, cost of sales, selling and administrative expenses, operating income, interest expense, income tax expense (benefit), effective income tax rate, net income, diluted shares and diluted net earnings per share, the most directly comparable GAAP financial measures. These non-GAAP financial measures are an additional way of viewing aspects of the Company's operations that, when viewed with GAAP results and the reconciliations to corresponding GAAP financial measures above, provide a more complete understanding of the business. The Company strongly encourages investors and shareholders to review its financial statements and publicly filed reports in their entirety and not to rely on any single financial measure.
