Forward Looking Information

Certain statements made in the presentation may constitute forward-looking statements. The forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and relate to the Company's performance on a going-forward basis. They will be based upon management's expectations and involve risks and uncertainties which could cause actual results, performance or trends, to differ materially from those expressed in the forward-looking statements therein or in previous disclosures. The Company believes that all forward-looking statements made by it have a reasonable basis, but there can be no assurance that management's expectations, beliefs or projections as expressed in the forward-looking statements will actually occur or prove to be correct. In addition to general industry and economic conditions, factors that could cause actual results to differ materially from those discussed in the forward-looking statements include, but are not limited to: (i) the failure of any one or more of management's assumptions to prove to be correct; (ii) the risks relating to forward-looking statements discussed in the Company's filings with the Securities and Exchange Commission, including the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2013 and Quarterly Reports on Form 10-Q; (iii) cyclical purchasing patterns from customers, end-users and dealers; (iv) timely release of new products, and acceptance of such new products by the market; (v) the introduction of new products by competitors and other competitive responses; (vi) the possibility that any new acquisition (and its integration) or other transaction may require the Company to reconsider its financial assumptions and goals/targets; (vii) increasing costs for raw material, transportation, or litigation; (viii) the risk of a lack of allograft tissues due to reduced donations of such tissues or due to tissues not meeting the appropriate high standards for screening and/or processing of such tissues; and/or (ix) the Company's ability to devise and execute strategies to respond to market conditions.
