CONMED CORPORATION NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (Unaudited, in thousands except per share amounts)

Note 1 – Operations and Significant Accounting Policies

Organization and Operations

The accompanying consolidated condensed financial statements include the accounts of CONMED Corporation and its controlled subsidiaries ("CONMED", the "Company", "we" or "us"). All intercompany accounts and transactions have been eliminated. CONMED is a medical technology company specializing in instruments, implants and video equipment for arthroscopic sports medicine and powered surgical instruments, such as drills and saws, for orthopedic, otolaryngologic ("ENT"), neurosurgery and other surgical specialties. We are a leading developer, manufacturer and supplier of radio frequency ("RF") electrosurgery systems used routinely to cut and cauterize tissue in nearly all types of surgical procedures worldwide, endosurgery products such as trocars, clip appliers, scissors and surgical staplers, and a full line of electrocardiogram ("ECG") electrodes for heart monitoring and other patient care products. We also offer integrated operating room systems and equipment. Our newest product line, CONMED Endoscopic Technologies, offers a portfolio of innovative disposable products used by gastroenterologists to diagnose and treat diseases of the digestive tract. Our products are used in a variety of clinical settings, such as operating rooms, surgery centers, physicians' offices and hospitals.

CONMED conducts its business through five principal operating units, CONMED Electrosurgery, CONMED Endoscopic Technologies, CONMED Endosurgery, CONMED Linvatec and CONMED Patient Care. All of our operating units have been aggregated into a single segment comprised of medical instruments and systems used in surgical and other medical procedures due to their similar economic characteristics, customer base, nature of products and services, procurement, regulatory environments, manufacturing and distribution processes. Total Company performance is evaluated by our chief operating decision maker which has been identified as the President and Chief Operating Officer, who reviews operating results and makes resource allocation decisions. Therefore, all required information regarding segment revenues, profitability and total assets may be obtained from our consolidated condensed financial statements.

Stock-based Compensation

We account for our stock-based compensation plans under the provisions of Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees". No compensation expense has been recognized in the accompanying financial statements relative to our stock option plans. Pro forma information regarding net income and earnings per share is required by Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation" ("SFAS 123") and has been determined as if we had accounted for our employee stock options under the fair value method of that statement.

For purposes of the pro forma disclosures, the estimated fair value of the options is amortized to expense over the options' vesting period. The following table illustrates the effect on net earnings as if the fair value provisions of SFAS

	Three months ended June 30,			Six month June			d

Earnings per share – pro forma:							
Basic Diluted	\$.37 .36	\$.32 .31	\$.76 .74	\$.67 .66

Note 2 – Interim financial information

The accompanying unaudited consolidated condensed financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for annual financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Results for the period ended June 30, 2005 are not necessarily indicative of the results that may be expected for the year ending December 31, 2005.

The consolidated condensed financial statements and notes thereto should be read in conjunction with the financial statements and notes for the year-ended December 31, 2004 included in our Annual Report on Form 10-K.

Note 3 – Other comprehensive income

Comprehensive income consists of the following:

	Three months ended June 30,					ths ended ne 30,			
	 2004		2005		2005		2004		2005
Net income	\$ 12,292	\$	10,508	\$	24,331	\$	21,273		
Other comprehensive income: Foreign currency									
translation adjustment	(1,434)		(2,186)		(1,713)		(2,702)		
Cash flow hedging									
(net of income taxes)	 (339)				(146)				
Comprehensive income	\$ 10,519	\$	8,322	\$	22,472	\$	18,571		

	Minimum Pension Liability		Т	umulative ranslation ljustments	Со	ccumulated Other nprehensive come (loss)
Balance, December 31, 2004	\$	(10,455)	\$	4,056	\$	(6,399)
Foreign currency translation adjustments				(2,702)		(2,702)
Balance, June 30, 2005	\$	(10,455)	\$	1,354	\$	(9,101)

<u>Note 4 – Inventories</u>

Inventories consist of the following:

	December 31, 2004	June 30, 2005
Raw materials	\$ 40,781	\$ 43,342
Work-in-process	13,427	15,049
Finished goods	73,727	83,664
Total	\$ 127,935	\$ 142,055

Note 5 - Earnings per share

We compute basic earnings per share ("basic EPS") by dividing net income by the weighted average number of common shares outstanding for the reporting period. Diluted earnings per share ("diluted EPS") gives effect to all dilutive potential shares outstanding resulting from employee stock options during the period. The following table sets forth the computation of basic and diluted earnings per share for the three and six month periods ended June 30, 2004 and 2005.

	Three mon June		Six month June	
	2004	2005	2004	2005
Net income	12,292	10,508	24,331	21,273
Basic – weighted average shares outstanding	29,649	29,494	29,476	29,301
Effect of dilutive potential securities	664	566	675	529
Diluted – weighted average shares outstanding	30,313	30,060	30,151	29,830

The shares used in the calculation of diluted EPS exclude options to purchase shares where the exercise price was greater than the average market price of common shares for the period. No such shares were excluded from the calculation of diluted EPS for the three and six months ended June 30, 2004. Shares excluded from the

calculation of diluted EPS aggregated 0.3 million for the three and six months ended June 30, 2005. In accordance with EITF (Emerging Issues Task Force) Issue 04-8, "The Effect of Contingently Convertible Debt on Diluted Earnings per Share", the shares used in the calculation of diluted EPS exclude the potential shares contingently issuable under our 2.50% convertible senior subordinated notes (the "Notes") because as of June 30, 2005, our share price has not exceeded the conversion price of the Notes. Upon conversion, the holder of each Note will receive the conversion value of the Note payable in cash up to the principal amount of the Note and CONMED common stock for the Note's conversion value in excess of such principal amount. The maximum number of shares we may issue with respect to the Notes is 5,750,000.

Note 6 - Goodwill and other intangible assets

The changes in the net carrying amount of goodwill for the six months ended June 30, 2005 are as follows:

Balance as of January 1, 2005	\$ 334,483
Adjustments to goodwill resulting from	
business acquisitions finalized	364
Foreign currency translation	561
Balance as of June 30, 2005	\$ 335,408

Goodwill associated with each of our principal operating units is as follows:

		De	December 31, 2004				June 30, 2005
CONMED Electrosurgery		\$	16,249	\$	13,533		
CONMED Endoscopic Technologies			43,876		46,660		
CONMED Endosurgery			42,388		42,388		
CONMED Linvatec			175,120		175,613		
CONMED Patient Care			56,850		57,214		
		\$	334,483	\$	335,408		
	7						

	December 31, 2004							
	Gross Carrying Amount		Accumulated Amortization		Gross Carrying Amount			ccumulated nortization
Amortized intangible assets:								
Customer relationships	\$	110,612	\$	(18,290)	\$	110,612	\$	(19,805)
Patents and other intangible assets		35,444		(19,876)		36,298		(21,229)
Unamortized intangible assets:								
Trademarks and tradenames		87,344		_		87,344		—
	\$	233,400	\$	(38,166)	\$	234,254	\$	(41,034)
		8						

Other intangible assets primarily represent allocations of purchase price to identifiable intangible assets of acquired businesses. The weighted average amortization period for intangible assets which are amortized is 24 years. Customer relationships are being amortized over a weighted average life of 37 years. Patents and other intangible assets are being amortized over a weighted average life of 9 years.

Amortization expense related to intangible assets which are subject to amortization totaled \$1,408 and \$2,868 in the three and six months ended June 30, 2005, respectively, and \$1,347 and \$2,952 in the three and six months ended June 30, 2004, respectively, and is included in selling and administrative expense on the consolidated condensed statement of income.

The estimated amortization expense for the year ending December 31, 2005, including the six month period ended June 30, 2005 and for each of the five succeeding years is as follows:

2005	\$5,632
2006	5,125
2007	5,112
2008	4,993
2009	4,556
2010	4,478

We perform impairment tests of goodwill and indefinite-lived intangible assets and evaluate the useful lives of acquired intangible assets subject to amortization. These tests and evaluations are performed in accordance with Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets." No impairment losses or adjustments to useful lives have been recognized as a result of these tests. It is our policy to perform our annual impairment tests in the fourth quarter.

Note 7 - Guarantees

We provide warranties on certain of our products at the time of sale. The standard warranty period for our capital and reusable equipment is generally one year. Liability under service and warranty policies is based upon a review of historical warranty and service claim experience. Adjustments are made to accruals as claim data and historical experience warrant.

Changes in the carrying amount of service and product warranties for the six months ended June 30, 2005 are as follows:

Balance as of January 1, 2005	\$ 3,524
Provision for warranties	2,059
Claims made	(2,078)
Balance as of June 30, 2005	\$ 3,505

<u>Note 8 – Pension plan</u>

Net periodic pension costs consist of the following:

	Three months ended June 30,			Six months e June 30				
	 2004		2005		2004		2005	
Service cost	\$ 1,069	\$	962	\$	2,138	\$	1,955	
Interest cost on projected benefit obligation	634		727		1,268		1,478	
Expected return on plan assets	(665)		(784)		(1,330)		(1,593)	
Net amortization and deferral	 200		202		400		410	
Net periodic pension cost	\$ 1,238	\$	1,107	\$	2,476	\$	2,250	

We previously disclosed in our Annual Report on Form 10-K for the year-ended December 31, 2004 that we expected to fund our pension in 2005 by an amount not to exceed \$4.5 million. No pension funding was required or made during the three and six month periods ended June 30, 2005.

Note 9 – Other expense

Other expense consists of the following:

	Three months ended June 30,			Six months ended June 30,				
	2004		2005		2004		2005	
Environmental settlement costs	\$		\$	698	\$		\$	698
Termination of product offering	Ψ		Ψ	429	Ψ	_	Ψ	949
Acquisition-related costs				1,449				2,829
Other expense	\$	_	\$	2,576	\$	_	\$	4,476

During the quarter ended June 30, 2005, we entered into a settlement of certain environmental claims related to the operations of one of our subsidiaries during the 1980s, before it was acquired by CONMED, at a site other than the one it currently occupies. The current owner alleged that the acquired subsidiary caused environmental contamination of the property. In order to avoid litigation, the Company agreed to reimburse the owner for a certain percentage of past remediation costs, and to participate in the funding of the remediation activities. The total sum of past costs, including attorney's fees, together with the current estimate of future costs, amounts to approximately \$0.7 million and has been recorded in other expense.

During the quarter ended December 31, 2004, we elected to terminate our surgical lights product line and we instituted a customer replacement program whereby all currently installed surgical lights will be replaced by CONMED. The entire cost of the replacement program, including the write-off of the remaining surgical lights inventory, purchase of new surgical lights from an alternative

supplier and installation costs are expected to approximate \$4.2 million. During the fourth quarter of 2004, we recorded a charge of \$2.4 million for the writeoff of surgical lights inventory and the cost of surgical light replacements performed through December 31, 2004. During the three and six months ended June 30, 2005, we incurred an additional \$0.4 million and \$0.9 million, respectively in costs under the replacement program which we have recorded to other expense. It is anticipated that the remaining \$0.9 million in costs will be incurred in 2005 as the replacement program is completed.

During the three and six months ended June 30, 2005, we incurred \$1.4 million and \$2.8 million, respectively, of acquisition and integration-related charges associated with the September 30, 2004 acquisition of Bard Endoscopic Technologies which have been recorded in other expense. These charges consist of certain compensation, travel, legal and other acquisition and integration-related costs. See additional discussion of the Bard Endoscopic Technologies acquisition in Note 12.

Note 10 - Legal proceedings

From time to time, we are a defendant in certain lawsuits alleging product liability, patent infringement, or other claims incurred in the ordinary course of business. These claims are generally covered by various insurance policies, subject to certain deductible amounts and maximum policy limits. When there is no insurance coverage, as would typically be the case primarily in lawsuits alleging patent infringement, we establish sufficient reserves to cover probable losses associated with such claims. We do not expect that the resolution of any pending claims will have a material adverse effect on our financial condition or results of operations. There can be no assurance, however, that future claims, the costs associated with claims, especially claims not covered by insurance, will not have a material adverse effect on our future performance.

Manufacturers of medical products may face exposure to significant product liability claims. To date, we have not experienced any material product liability claims, but any such claims arising in the future could have a material adverse effect on our business or results of operations. We currently maintain commercial product liability insurance of \$25 million per incident and \$25 million in the aggregate annually, which we believe is adequate. This coverage is on a claims-made basis. There can be no assurance that claims will not exceed insurance coverage or that such insurance will be available in the future at a reasonable cost to us.

Our operations are subject to a number of environmental laws and regulations governing, among other things, air emissions, wastewater discharges, the use, handling and disposal of hazardous substances and wastes, soil and groundwater remediation and employee health and safety. In some jurisdictions environmental requirements may be expected to become more stringent in the future. In the United States certain environmental laws can impose liability for the entire cost of site restoration upon each of the parties that may have contributed to conditions at the site regardless of fault or the lawfulness of the party's activities. While we do not believe that the present costs of environmental compliance and remediation are material, there can be no assurance that future compliance or remedial obligations could not have a material adverse effect on our financial condition or results of operations. As discussed in Note 8, we entered into a settlement of certain environmental claims during the second quarter of 2005 related to the operations of one of our subsidiaries during the 1980s, before it was acquired by CONMED, at a

site other than the one it currently occupies.

In November 2003, we commenced litigation against Johnson & Johnson and several of its subsidiaries, including Ethicon, Inc. for violation of federal and state antitrust laws. The lawsuit claims that Johnson & Johnson engaged in illegal and anticompetitive conduct with respect to sales of product used in endoscopic surgery, resulting in higher prices to consumers and the exclusion of competition. We have sought relief which includes an injunction restraining Johnson & Johnson from continuing its anticompetitive practice as well as receiving the maximum amount of damages allowed by law. Our claims against Johnson & Johnson are currently in the discovery stage. While we believe that our claims are well-grounded in fact and law, there can be no assurance that we will be successful in our claim. In addition, the costs associated with pursuing this claim may be material.

Note 11 - New accounting pronouncements

In December 2004, the Financial Accounting Standards Board ("FASB") issued SFAS No. 123 (revised 2004), "Share-Based Payment" ("SFAS 123R"), which replaces SFAS No. 123, "Accounting for Stock-Based Compensation" ("SFAS 123") and supercedes APB Opinion No. 25, "Accounting for Stock Issued to Employees." In April 2005, the Securities and Exchange Commission released a final rule "Amendment to Rule 4-01(a) of Regulation S-X Regarding the Compliance Date for Statement of Financial Accounting Standards No. 123 (Revised 2004), *Share-Based Payment*". This rule defers the date for which we will be required to adopt SFAS 123R until January 1, 2006. SFAS 123R requires that all share-based payments to employees, including grants of employee stock options, be recognized in the financial statements based on their fair values. The pro forma disclosures previously permitted under SFAS 123, no longer will be an alternative to financial statement recognition. Under SFAS 123R, we must determine the appropriate fair value model to be used in valuing share-based payments, the amortization method for compensation cost and the transition method to be used at the date of adoption. Upon adoption, we may choose from two transition approach would be required to recognize compensation cost for awards that were granted prior to, but not vested as of the date of adoption. Prior periods remain unchanged and pro forma disclosures previously required by SFAS No. 123 continue to be required. Under the modified-retrospective transition method, we would be required to restate prior periods by recognizing compensation cost in the amounts previously reported in the proforma disclosure under SFAS No. 123. Under this method, we would be permitted to apply this presentation to all periods presented or to the start of the fiscal year in which SFAS No. 123. Under this method, we would be permitted to follow the same guidelines as in the modified-prospective transition method for to the start of the fiscal year in which SFAS No. 123. Inder this method,

In March 2005, the SEC issued StaffAccounting Bulletin Number 107 ("SAB 107") that provided additional guidance to public companies relating to share-based payment transactions and the implementation of SFAS 123R, including guidance regarding valuation methods and related assumptions, classification of compensation expense and income tax effects of share-based payment arrangements. We are currently evaluating the requirements of SFAS 123R and its impact on our consolidated results of operations and earnings per share. We have not yet determined the method of adoption or the effect of adopting SFAS 123R together with the guidance provided by

SAB 107, and it has not been determined whether the adoption will result in amounts similar to the current pro forma disclosures under SFAS 123.

In December 2004, the FASB issued Staff Position No. 109-1, "Application of FASB Statement No. 109, Accounting for Income Taxes, to the Tax Deduction on Qualified Production Activities Provided by the American Jobs Creation Act of 2004" ("FSP 109-1"). FSP 109-1 clarifies that the manufacturer's deduction provided for under the American Jobs Creation Act of 2004 (the "Jobs Act") will be treated as a "special deduction" as described in FASB Statement No. 109, "Accounting for Income Taxes" ("SFAS 109") and not as a tax rate reduction. The special deduction has no effect on deferred tax assets and liabilities existing at the enactment date. Rather, the impact of this deduction will be reported in the period in which the deduction is claimed on our tax return. We do not expect this deduction to have a significant impact on our financial position or results of operations in 2005.

In December 2004, the FASB issued Staff Position No. 109-2, "Accounting and Disclosure Guidance for the Foreign Earnings Repatriation Provision within the American Jobs Creation Act of 2004" ("FSP 109-2"). FSP 109-2 provides guidance under SFAS 109 with respect to recording the potential impact of the repatriation provisions of the Jobs Act on enterprises' income tax expense and deferred tax liability. FSP 109-2 states that an enterprise is allowed time beyond the financial reporting period of enactment to evaluate the effect of the Jobs Act on its plan for reinvestment or repatriation of foreign earnings for purposes of applying SFAS 109. We are currently evaluating the impact of FSP 109-2.

Financial Accounting Standards Board Interpretation No. 47, "Accounting for Conditional Asset Retirement Obligations (an interpretation of FASB Statement No. 143)" was issued in March 2005. This Interpretation provides clarification with respect to the timing of liability recognition for legal obligations associated with the retirement of tangible long-lived assets when the timing and/or method of settlement of the obligation are conditional on a future event. We are currently evaluating the potential impact of this Interpretation which is effective for us no later than December 31, 2005.

In May 2005, the FASB issued Statement of Financial Accounting Standards No. 154, "Accounting Changes and Error Corrections - A Replacement of APB Opinion No. 20 and FASB Statement No. 3.", ("SFAS 154"). SFAS 154 requires retrospective application to prior periods' financial statements for the direct effects of changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. SFAS 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005, and early adoption is permitted.

On June 30, 2005, tax legislation in the state of Ohio was enacted that will significantly restructure the tax system for most corporate taxpayers. Included in the legislation is a multi-year phase-out of the state franchise tax and tangible personal property tax. These taxes will be replaced with a Commercial Activity Tax that will be phased-in over a five-year period. We are currently evaluating the impact of this new tax law, however we do not expect it to materially impact our consolidated results of operations.

Note 12 – Business acquisition

As more fully described in our Annual Report on Form 10-K for the year-ended December 31, 2004, on September 30, 2004, we acquired the business operations of the Endoscopic Technologies Division of C.R. Bard, Inc. (the "Bard Endoscopic Technologies acquisition") for aggregate consideration of \$81.3 million in cash. The acquired business included various tangible and intangible assets associated with a comprehensive line of single-use medical devices employed by gastro-intestinal and pulmonary physicians to diagnose and treat diseases of the digestive tract and lungs using minimally invasive endoscopic techniques.

Manufacturing of the acquired products is being conducted in various C.R. Bard facilities under a transition agreement. The transition of the manufacturing of these products from C.R. Bard facilities to CONMED facilities is currently underway and is expected to be completed in 2006.

Included in cost of sales during the three and six month periods ended June 30, 2005 is \$0.5 million of expense which represents a portion of the step-up to fair value recorded relating to the sale of inventory acquired through the Bard Endoscopic Technologies acquisition. As described in Note 9, during the three and six month periods ended June 30, 2005, we incurred \$1.4 million and \$2.8 million, respectively, of acquisition and integration-related charges associated with the Bard Endoscopic Technologies acquisition which have been recorded in other expense.

Unaudited pro forma statements of income information for the three and six months ended June 30, 2004 assuming the Bard Endoscopic Technologies acquisition occurred as of January 1, 2004 are presented below. This pro forma statement of income information has been prepared for comparative purposes only and does not purport to be indicative of the results of operations which actually would have resulted had the Bard Endoscopic Technologies acquisition occurred on January 1, 2004 or which may result in the future.

	1	Fhree Months Ended	s	ix Months Ended
	_	June	30, 2004	
Net sales	\$	146,934	\$	296,034
Net income		12,288		23,542
Net income per share				
Basic EPS	\$	0.41	\$.80
Diluted EPS		0.41		.78

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

In this Report on Form 10-Q, we make forward-looking statements about our financial condition, results of operations and business. Forward-looking statements are statements made by us concerning events that may or may not occur in the future. These statements may be made directly in this document or may be "incorporated by reference" from other documents. You can find many of these statements by looking for words like "believes," "expects," "anticipates," "estimates" or similar expressions.

Forward-Looking Statements are not Guarantees of Future Performance

Forward-looking statements involve known and unknown risks, uncertainties and other factors, including those that may cause our actual results, performance or achievements, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include those identified under "Risk Factors" in our Annual Report on Form 10-K for the year-ended December 31, 2004 and the following, among others:

- general economic and business conditions;
- cyclical customer purchasing patterns due to budgetary and other constraints;
- changes in customer preferences;
- competition;
- changes in technology;
- the ability to evaluate, finance and integrate acquired businesses, products and companies;
- the introduction and acceptance of new products;
- changes in business strategy;
- the possibility that United States or foreign regulatory and/or administrative agencies may initiate enforcement actions against us or our distributors;
- future levels of indebtedness and capital spending;
- quality of our management and business abilities and the judgment of our personnel;
- the risk of litigation, especially patent litigation as well as the cost associated with patent and other litigation;
- changes in foreign exchange and interest rates;
- changes in regulatory requirements; and
- the availability, terms and deployment of capital.

See "Management's Discussion and Analysis of Financial Condition and Results of Operations" below and "Business" in our Annual Report on Form 10-K for the year-

ended December 31, 2004 for a further discussion of these factors. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. We do not undertake any obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date of this Quarterly Report on Form 10-Q or to reflect the occurrence of unanticipated events.

Overview:

CONMED Corporation ("CONMED", the "Company", "we" or "us") is a medical technology company with six principal product lines. These product lines and the percentage of consolidated revenues associated with each, are as follows:

	Three months	ended	Six months ended		
	June 30,		June 30,		
	2004	2005 2004		2005	
	26.70/				
Arthroscopy	36.7%	34.6%	37.5%	34.6%	
Powered Surgical Instruments	24.0	21.4	24.5	22.1	
Patient Care	14.1	12.1	13.7	12.1	
Electrosurgery	15.7	14.3	15.4	13.9	
Endosurgery	9.5	8.1	8.9	8.0	
Endoscopic Technologies	0.0	9.5	0.0	9.3	
Consolidated Net Sales	100.0%	100.0%	100.0%	100.0%	

A significant amount of our products are used in surgical procedures with the majority of our revenues derived from the sale of disposable products. We manufacture substantially all of our products in facilities located in the United States. We market our products both domestically and internationally directly to customers and through distributors. International sales represent a significant portion of our business. During the six months ended June 30, 2005, sales to purchasers outside of the United States accounted for 37.6% of total net sales.

Business Environment, Opportunities and Challenges

The aging of the worldwide population along with lifestyle changes, continued cost containment pressures on healthcare systems and the desire of clinicians and administrators to use less invasive (or non-invasive) procedures are important trends which are driving the growth for our surgical and patient care products.

We have historically used strategic business acquisitions and exclusive distribution relationships to diversify our product offerings, increase our market share in certain product lines and realize economies of scale.

In September 2004 we completed the acquisition of certain products of the Endoscopic Technologies Division of C.R. Bard, Inc. (the "Bard Endoscopic Technologies acquisition" – see Note 12 to the Consolidated Condensed Financial Statements). The acquired product line consists of various disposable products used by gastroenterologists to diagnose and treat diseases of the digestive tract. Several of the products are used in conjunction with electrosurgical devices to cause hemostasis following the removal of diseased tissue. We believe that these products complement our Electrosurgery product offerings.

In May 2005, we entered into a distribution agreement with Xillix Technologies Corporation, a manufacturer of fluorescence endoscopy products. The agreement appoints CONMED as the sole distributor of Xillix's Onco-LIFETM product in the United States and Canada. Onco-LIFETM incorporates fluorescence and white-light endoscopy in a single device for the detection and localization of lung and gastrointestinal cancers.

Continued innovation and commercialization of new proprietary products and processes are essential elements of our long-term growth strategy. In February 2005, we unveiled several new products at the American Academy of Orthopedic Surgeons Annual Meeting which will enhance our arthroscopy and powered instrument product offerings. Our reputation as an innovator is exemplified by these recent product introductions, which include an Advantage® Turbo Arthroscopic Shaver System; PINN-ACL® cross pin device; LightwaveTM suction ablator; PowerProMaxTM powered instrument handpieces, batteries and attachments; ThRevoTM triple-loaded suture anchor; and SuperRevo®/Bio-Anchor®/DuetTM/ImpactTM suture anchors pre-threaded with HerculineTM. Additionally, in March 2005 we introduced our Pro2® product which permits non-invasive analysis of blood oxygen levels in clinical situations which previously could not be accomplished using traditional non-invasive techniques. We anticipate a full product release in the United States in the fourth quarter of 2005.

We have a variety of research and development initiatives focused in each of our principal product lines. Among the most significant of these efforts is the Endotracheal Cardiac Output Monitor ("ECOM"). Our ECOM product offering is expected to replace catheter monitoring of cardiac output with a specially designed endotracheal tube which utilizes proprietary bio-impedance technology. Also of significance are our research and development efforts in the area of tissue-sealing for electrosurgery and high definition minimally-invasive surgery camera systems for arthroscopy.

Certain of our products, particularly our line of surgical suction instruments, tubing and ECG electrodes are more commodity in nature, with limited opportunity for product differentiation. These products compete in mature, price sensitive markets. We believe that we may continue to profitably compete in these product lines by maintaining and improving our low cost manufacturing structure.

Critical Accounting Estimates

Preparation of our financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Note 1 to the consolidated financial statements in our Annual Report on Form 10-K for the year-ended December 31, 2004 describes the significant accounting policies used in preparation of the consolidated financial statements. The most significant areas involving management judgments and estimates are described below and are considered by management to be critical to understanding the financial condition and results of operations of CONMED Corporation. There have been no significant changes in our critical accounting estimates during the second quarter of 2005.

Revenue Recognition

Revenue is recognized when title has been transferred to the customer, which is generally at the time of shipment. The following policies apply to our major categories of revenue transactions:

- Sales to customers are evidenced by firm purchase orders. Title and the risks and rewards of ownership are transferred to the customer when product is shipped. Payment by the customer is due under fixed payment terms.
- We place certain of our capital equipment with customers in return for commitments to purchase disposable products over time periods generally ranging from one to three years. In these circumstances, no revenue is recognized upon capital equipment shipment and we recognize revenue upon the disposable product shipment. The cost of the equipment is amortized over the term of the individual commitment agreements.
- Product returns are only accepted at the discretion of the Company and in accordance with our "Returned Goods Policy". Historically, the level of product returns has not been significant. We accrue for sales returns, rebates and allowances based upon an analysis of historical customer returns and credits, rebates, discounts and current market conditions.
- Our terms of sale to customers generally do not include any obligations to perform future services. Limited warranties are generally provided for capital equipment sales and provisions for warranty are provided at the time of product sale based upon an analysis of historical data.
- Amounts billed to customers related to shipping and handling are included in net sales. Shipping and handling costs are included in selling and administrative expense.
- We sell to a diversified base of customers around the world and, therefore, believe there is no material concentration of credit risk.
- We assess the risk of loss on accounts receivable and adjust the allowance for doubtful accounts based on this risk assessment. Historically, losses on accounts receivable have not been material. Management believes the allowance for doubtful accounts of \$0.9 million at June 30, 2005 is adequate to provide for any probable losses from accounts receivable.

Inventory Reserves

We maintain reserves for excess and obsolete inventory resulting from the inability to sell our products at prices in excess of current carrying costs. The markets in which we operate are highly competitive, with new products and surgical procedures introduced on an on-going basis. Such marketplace changes may result in our products becoming obsolete. We make estimates regarding the future recoverability of the costs of our products and record a provision for excess and obsolete inventories based on historical experience, expiration of sterilization dates and expected future trends. If actual product life cycles, product demand or acceptance of new product introductions are less favorable than projected by

management, additional inventory write-downs may be required. We believe that our current inventory reserves are adequate.

Business Acquisitions

We have a history of growth through acquisitions, including most recently, the Bard Endoscopic Technologies acquisition in September 2004. Assets and liabilities of acquired businesses are recorded under the purchase method of accounting at their estimated fair values as of the date of acquisition. Goodwill represents costs in excess of fair values assigned to the underlying net assets of acquired businesses. Other intangible assets primarily represent allocations of purchase price to identifiable intangible assets of acquired businesses. We have accumulated goodwill of \$335.4 million and other intangible assets of \$193.2 million at June 30, 2005.

In accordance with Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets," ("SFAS 142"), goodwill and intangible assets deemed to have indefinite lives are not amortized, but are subject to at least annual impairment testing. The identification and measurement of goodwill impairment involves the estimation of the fair value of our business. Estimates of fair value are based on the best information available as of the date of the assessment, which primarily incorporate management assumptions about expected future cash flows and contemplate other valuation techniques. Future cash flows may be affected by changes in industry or market conditions or the rate and extent to which anticipated synergies or cost savings are realized with newly acquired entities.

Intangible assets with a finite life are amortized over the estimated useful life of the asset. Intangible assets which continue to be subject to amortization are also evaluated to determine whether events and circumstances warrant a revision to the remaining period of amortization. An intangible asset is determined to be impaired when estimated undiscounted future cash flows indicate that the carrying amount of the asset may not be recoverable. An impairment loss is recognized by reducing the recorded value to its current fair value. Although no goodwill or other intangible asset impairment has been recorded to date, there can be no assurance that future impairment will not occur. It is our policy to perform annual impairment tests in the fourth quarter.

Pension Plan

We sponsor a defined benefit pension plan covering substantially all our employees. Major assumptions used in the accounting for the plan include the discount rate, expected return on plan assets, rate of increase in employee compensation levels and expected mortality. Assumptions are determined based on Company data and appropriate market indicators, and are evaluated annually as of the plan's measurement date. A change in any of these assumptions would have an effect on net periodic pension costs reported in the consolidated financial statements.

Lower market interest rates have resulted in us lowering the discount rate used in determining pension expense from 6.25% in 2004 to 5.75% in 2005. This change in assumption will result in higher pension expense during 2005.

We have used an expected rate of return on pension plan assets of 8.0% for purposes of determining the net periodic pension benefit cost. In determining the expected return on pension plan assets, we consider the relative weighting of plan

assets, the historical performance of total plan assets and individual asset classes and economic and other indicators of future performance. In addition, we consult with financial and investment management professionals in developing appropriate targeted rates of return.

We have estimated our rate of increase in employee compensation levels at 3.0% consistent with our internal budgeting.

As of December 31, 2004, the Company changed from the 1984 Unisex Pension mortality table to the 1994 Group Annuity Reserving mortality table for purposes of determining expected mortality. This change in assumption will result in higher pension expense during 2005.

Based on these and other factors, pension expense for the year-ended December 31, 2005 is estimated at approximately \$4.5 million as compared to pension expense of approximately \$3.6 million for the year-ended December 31, 2004. Actual expense may vary significantly from this estimate. For the six month period ended June 30, 2005 we recorded \$2.5 million.

Income Taxes

The recorded future tax benefit arising from net deductible temporary differences and tax carryforwards is approximately \$22.7 million at June 30, 2005. Management believes that our earnings during the periods when the temporary differences become deductible will be sufficient to realize the related future income tax benefits.

We have established a valuation allowance to reflect the uncertainty of realizing the benefits of certain net operating loss carryforwards recognized in connection with the Bionx acquisition. Any subsequently recognized tax benefits associated with the valuation allowance would be allocated to reduce goodwill. In assessing the need for a valuation allowance, we estimate future taxable income, considering the feasibility of ongoing tax planning strategies and the realizability of tax loss carryforwards. Valuation allowances related to deferred tax assets may be impacted by changes to tax laws, changes to statutory tax rates and future taxable income levels.

Results of Operations

The following table presents, as a percentage of net sales, certain categories included in our consolidated statements of income for the periods indicated:

Three months ended June 30,		nd ed
2005	2004	2005
100.0%	100.0%	100.0%
48.1	47.5	48.2
51.9	52.5	51.8
33.8	32.6	33.8
4.0	3.6	3.9
1.6	_	1.4
12.4	16.3	12.7
2.3	2.2	2.3
10.1	14.1	10.3
3.5	4.9	3.6
6.6%	9.2%	6.8%
	6.6%	6.6% 9.2%

Three months ended June 30, 2005 compared to three months ended June 30, 2004

Sales for the quarter ended June 30, 2005 were \$158.3 million, an increase of \$27.4 million (20.9%) compared to sales of \$130.9 million in the same period a year ago. The Bard Endoscopic Technologies acquisition accounted for \$15.0 million of the above increase and favorable foreign currency exchange rates accounted for \$1.9 million.

Arthroscopy sales increased \$6.8 million (14.2%) in the quarter ended June 30, 2005 to \$54.8 million from \$48.0 million in the same period a year ago, principally as a result of increased sales of our procedure specific, resection and video imaging products for arthroscopy and general surgery, and our integrated operating room systems and equipment.

Powered surgical instrument sales increased \$2.5 million (8.0%) in the quarter ended June 30, 2005 to \$33.9 million from \$31.4 million in the same period a year ago, principally as a result of increased sales of our PowerPro® line of large bone powered instrument products and our PowerPro Max® line of small bone powered instrument products.

Patient care sales increased \$0.7 million (3.8%) in the quarter ended June 30, 2005 to \$19.1 million from \$18.4 million in the same period a year ago, principally as a result of increased sales of our pulse oximetry products.

Electrosurgery sales increased 2.0 million (9.7%) in the quarter ended June 30, 2005 to 22.6 million from 20.6 million in the same period a year ago, principally as a result of increased sales of our System 5000^{TM} electrosurgical generator and disposable electrosurgical pencils and ground pads.

Endosurgery sales increased \$0.4 million (3.2%) in the quarter ended June 30, 2005 to \$12.9 million from \$12.5 million in the same period a year ago. This increase is principally as a result of increased sales of skin staplers and our various laparoscopic instrument products and systems.

Endoscopic Technologies sales in the quarter ended June 30, 2005 were \$15.0 million representing the results of the Bard Endoscopic Technologies acquisition.

Cost of sales increased to \$76.2 million in the quarter ended June 30, 2005 as compared to \$62.2 million in the same period a year ago on increased sales volumes in each of our principal product lines as described above. Gross profit margins decreased to 51.9% in the quarter ended June 30, 2005 as compared to 52.5% in the same period a year ago. We incurred \$1.8 million in charges related to the Bard Endoscopic Technologies acquisition in the quarterly period ended June 30, 2005 which have been included in cost of sales. The \$1.8 million in Bard Endoscopic Technologies acquisition charges consist of costs relating to inventory purchased from C.R. Bard under a transition agreement and sold at a cost higher than we expect to incur when we begin manufacturing the products ourselves. As a result, we expect the costs of these sales to decrease when the Bard Endoscopic Technologies transition is complete. The transition of the manufacturing of these products from

C.R. Bard facilities to CONMED facilities is currently underway and is expected to be completed in 2006. The decrease in gross margin percentage in the quarter ended June 30, 2005 as compared to the same period a year ago is due to these acquisition-related charges.

Selling and administrative expense increased to \$53.6 million in the quarter ended June 30, 2005 as compared to \$42.4 million in the same period a year ago. Selling and administrative expense as a percentage of net sales increased to 33.8% in the quarter ended June 30, 2005 as compared to 32.4% in the same period a year ago. This increase of 1.4 percentage points is primarily attributable to increased administrative expenses associated with the litigation against Johnson & Johnson (see Note 10 to the Consolidated Condensed Financial Statements), higher selling and administrative expenses associated with the business acquired as a result of the Bard Endoscopic Technologies acquisition and higher distribution costs as a result of higher petroleum prices.

Research and development expense totaled \$6.4 million in the quarter ended June 30, 2005 as compared to \$4.8 million in the same period a year ago. As a percentage of net sales, research and development expense increased to 4.0% in the quarter ended June 30, 2005, as compared to 3.7% in the same period a year ago. This increase of 0.3 percentage points is due to higher research and development expenses associated with the business acquired as a result of the Bard Endoscopic Technologies acquisition.

As discussed in Note 9 to the Consolidated Condensed Financial Statements, other expense in the quarter ended June 30, 2005 consisted of \$0.4 million in charges related to the termination of a product line, \$1.4 million in Bard Endosocopic Technologies acquisition-related costs, and \$0.7 million in environmental settlement costs. In the second quarter of 2004 we did not record a charge to other expense.

Interest expense in the quarter ended June 30, 2005 was \$3.6 million compared to \$2.6 million in the same period a year ago. The increase in interest expense is due primarily to higher weighted average borrowings outstanding in the quarter ended June 30, 2005 as compared to the same period a year ago. The increase in weighted average borrowings outstanding is primarily due to our financing of the Bard Endoscopic Technologies acquisition in September 2004. The weighted average interest rates on our borrowings (inclusive of the implicit finance charge on our accounts receivable sale facility) increased to 4.34% in the quarter ended June 30, 2005 as compared to 3.59% in the same period a year ago.

A provision for income taxes has been recorded at an effective tax rate of 34.5% for the quarter ended June 30, 2005 as compared to 35.0% in the same period a year ago. The effective rate for the quarter ended June 30, 2005 is lower than that recorded in the same period a year ago and the United States statutory rate of 35.0% as a result of an increase in the estimated benefits to be realized from the Extraterritorial Income Exclusion tax rules on foreign sales. A reconciliation of the United States statutory income tax rate to our effective tax rate is included in our Annual Report on Form 10-K for the year-ended December 31, 2004, Note 7 to the Consolidated Financial Statements.

Six months ended June 30, 2005 compared to six months ended June 30, 2004

Sales for the six months ended June 30, 2005 were \$314.1 million, an increase of \$49.2 million (18.6%) compared to sales of \$264.9 million in the same period a year ago. The Bard Endoscopic Technologies acquisition accounted for \$29.2 million of the above increase and favorable foreign currency exchange rates accounted for \$3.7 million.

Arthroscopy sales increased \$9.5 million (9.6%) in the six months ended June 30, 2005 to \$108.8 million from \$99.3 million in the same period a year ago, principally as a result of increased sales of our procedure specific, resection and video imaging products for arthroscopy and general surgery, and our integrated operating room systems and equipment.

Powered surgical instrument sales increased \$4.5 million (6.9%) in the six months ended June 30, 2005 to \$69.4 million from \$64.9 million in the same period a year ago, principally as a result of increased sales of our PowerPro® line of large bone powered instrument products and our PowerPro Max® line of small bone powered instrument products.

Patient care sales increased \$1.6 million (4.4%) in the six months ended June 30, 2005 to \$38.0 million from \$36.4 million in the same period a year ago, principally as a result of increased sales of our pulse oximetry products.

Electrosurgery sales increased \$2.7 million (6.6%) in the six months ended June 30, 2005 to \$43.5 million from \$40.8 million in the same period a year ago, principally as a result of increased sales of our System 5000TM electrosurgical generator and disposable electrosurgical pencils and ground pads.

Endosurgery sales increased \$1.7 million (7.2%) in the six months ended June 30, 2005 to \$25.2 million from \$23.5 million in the same period a year ago. This increase is principally due to increased sales of our skin staplers and various laparoscopic instrument products and systems.

Endoscopic Technologies sales in the six months ended June 30, 2005 were \$29.2 million representing the results of the Bard Endoscopic Technologies acquisition.

Cost of sales increased \$25.7 million in the six months ended 2005 to \$151.5 million from \$125.8 million in the same period a year ago on increased sales volumes in each of our principal product lines as described above. Gross profit margins decreased 0.7% in the six months ended June 30, 2005 to 51.8% from 52.5% in the same period a year ago. We incurred \$4.2 million in charges related to the Bard Endoscopic Technologies acquisition in the six months ended june 30, 2005 which have been included in cost of sales. The \$4.2 million in Bard Endoscopic Technologies acquisition charges consist of \$0.5 million related to the step-up to fair value of inventory acquired as a result of the Bard Endoscopic Technologies acquisition and \$3.7 million of costs relating to inventory purchased from C.R. Bard under a transition agreement and sold at a cost higher than we expect to incur when we begin manufacturing the products ourselves. As a result, we expect the costs of these sales to decrease when the Bard Endoscopic Technologies transition is complete. The transition of the manufacturing of these products from C.R. Bard facilities to CONMED facilities is currently underway and is expected to be completed in 2006. The decrease in gross margin percentage in the six months ended June 30, 2005 as compared to the same period a year ago is due to these acquisition-related charges.

Selling and administrative expense increased \$19.9 million in the six months ended June 30, 2005 to \$106.1 million from \$86.2 million in the same period a year ago. As a percentage of sales, selling and administrative expense was 33.8% in the six months ended June 30, 2005 as compared to 32.6% in the same period a year ago.

This increase of 1.2 percentage points is primarily attributable to increased administrative expenses associated with the litigation against Johnson & Johnson (see Note 10 to the Consolidated Condensed Financial Statements), higher selling and administrative expenses associated with the business acquired as a result of the Bard Endoscopic Technologies acquisition and higher distribution costs as a result of higher petroleum prices.

Research and development expense totaled \$12.2 million in the six months ended June 30, 2005 as compared to \$9.6 million in the same period a year ago. As a percentage of net sales, research and development expense increased to 3.9% in the six months ended June 30, 2005, as compared to 3.6% in the same period a year ago. This increase of 0.3 percentage points is due to higher research and development expenses associated with the business acquired as a result of the Bard Endoscopic Technologies acquisition.

As discussed in Note 9 to the Consolidated Condensed Financial Statements, other expense in the six months ended June 30, 2005 consisted of \$0.9 million in charges related to the termination of a product line, \$2.8 million in Bard Endoscopic Technologies acquisition-related costs, and \$0.7 million in environmental settlement costs. In the same period a year ago we did not record a charge to other expense.

Interest expense in the six months ended June 30, 2005 was \$7.3 million compared to \$5.9 million in the same period a year ago. The increase in interest expense is due primarily to higher weighted average borrowings outstanding in the six months ended June 30, 2005 as compared to the same period a year ago. The increase in weighted average borrowings outstanding is primarily due to our financing of the Bard Endoscopic Technologies acquisition in September 2004. The weighted average interest rates on our borrowings (inclusive of the implicit finance charge on our accounts receivable sale facility) increased to 4.37% in the six months ended June 30, 2005 as compared to 3.98% in the same period a year ago.

A provision for income taxes has been recorded at an effective tax rate of 34.5% for the six months ended June 30, 2005 and 35% for the same period a year ago. The effective rate for the first six months of 2005 is lower than that recorded in the same period a year ago and the United States statutory rate of 35.0% as a result of an increase in the estimated benefits to be realized from the Extraterritorial Income Exclusion tax rules on foreign sales. A reconciliation of the United States statutory income tax rate to our effective tax rate is included in our Annual Report on Form 10-K for the year-ended December 31, 2004, Note 7 to the Consolidated Financial Statements.

Liquidity and Capital Resources

Our liquidity needs arise primarily from capital investments, working capital requirements and payments on indebtedness under the senior credit agreement. We have historically met these liquidity requirements with funds generated from operations, including sales of accounts receivable and borrowings under our revolving credit facility. In addition, we use term borrowings, including borrowings under our senior credit agreement and borrowings under separate loan facilities, in the case of real property purchases, to finance our acquisitions. We also have the ability to raise funds through the sale of stock or we may issue debt through a private placement or public offering.

Operating cash flows

Our net working capital position was \$177.2 million at June 30, 2005. Net cash provided by operating activities was \$29.9 million in the six months ended June 30, 2005 and \$45.7 million in the same period a year ago.

Net cash provided by operating activities in the six months ended June 30, 2005 was favorably impacted by the following non-cash charges to income: depreciation, amortization and deferred income taxes. Also benefiting cash flow from operations were decreases in accounts receivable and increases in accounts payable, income taxes payable, and other liabilities as a result of the timing of the payment of these liabilities.

Net cash provided by operating activities in the six months ended June 30, 2005 was unfavorably impacted by the following: a decrease in accounts receivable sold under the accounts receivable sale facility; increases in inventories to ensure sufficient inventory on-hand as we transition the manufacturing of the Endoscopic Technologies product line to CONMED facilities; increases in other assets; and decreases in accrued interest and accrued compensation and benefits as a result of the timing of the payment of these liabilities.

Investing cash flows

Capital expenditures were \$8.1 million and \$4.3 million for the six months ended June 30, 2005 and 2004, respectively. The increase in capital expenditures in the six months ended June 30, 2005 as compared to the same period a year ago is primarily due to the ongoing expansion of our manufacturing and distribution capacity as a result of the Bard Endoscopic Technologies acquisition. We expect capital expenditures to approximate \$15.0 million during the year-ended December 31, 2005.

Payments related to business acquisitions during the three months ended June 30, 2005 and 2004, totaled \$0.4 million and \$0.2 million, respectively, and are additional cash consideration paid for a business acquisition as a result of a purchase price adjustment.

Financing cash flows

Net cash used in financing activities in the six months ended June 30, 2005 consisted primarily of the following: \$13.0 million in proceeds from the issuance of common stock under our stock option plans and employee stock purchase plan; \$7.8 million used to repurchase our common stock under our Board of Directors approved stock repurchase program; \$28.6 million in repayments of term borrowings under our senior credit agreement and \$8.0 million in borrowings under the revolving credit facility of our senior credit agreement.

Our senior credit facility consists of a \$100 million revolving credit facility and a \$260 million term loan. At June 30, 2005 there was \$8.0 million outstanding on the revolving credit facility. The aggregate amount outstanding on the term loan was \$99.4 million at June 30, 2005. The term loan is scheduled to be repaid in quarterly installments over a period of approximately 5 years, with scheduled principal payments of \$2.6 million annually through December 2007 increasing to \$60.3 million in 2008 and the remaining balance outstanding due in December 2009. We have made all scheduled term loan repayments as they have come due. We may also be required, under certain circumstances, to make additional principal payments based on excess annual cash flow as defined in the senior credit agreement. No such payments were required during 2004 or 2005. Interest rates on

the term loan are at the London Interbank Offered Rate ("LIBOR") plus 2.25% (5.71% at June 30, 2005). Interest rates on the revolving credit facility are at LIBOR plus 2.25% or an alternative base rate (7.25% at June 30, 2005).

Outstanding debt in connection with the property and facilities utilized by our CONMED Linvatec subsidiary consists of a note bearing interest at 7.50% per annum with semiannual payments of principal and interest through June 2009 (the "Class A note"); and a note bearing interest at 8.25% per annum compounded semiannually through June 2009, after which semiannual payments of principal and interest will commence, continuing through June 2019 (the "Class C note"). The principal balances outstanding on the Class A note and Class C note aggregated \$7.6 million and \$8.5 million, respectively, at June 30, 2005.

On November 11 2004, we completed an offering of \$150.0 million in 2.50% convertible senior subordinated notes (the "Notes") due 2024. This offering has allowed us to fix interest rates on \$150.0 million of our total outstanding long-term debt at 2.50%. The Notes represent subordinated unsecured obligations and are convertible under certain circumstances, as defined in the bond indenture, into a combination of cash and CONMED common stock. Upon conversion, the holder of each Note will receive the conversion value of the Note payable in cash up to the principal amount of the Note and CONMED common stock for the Note's conversion value in excess of such principal amount. Amounts in excess of the principal amount are at an initial conversion rate, subject to adjustment, of 26.1849 shares per \$1,000 principal amount of the Note (which represents an initial conversion price of \$38.19 per share). The Notes mature on November 15, 2024 and are not redeemable by us prior to November 15, 2011. Holders of the Notes will be able to require that we repurchase some or all of the Notes on November 15, 2011, 2014 and 2019.

Our Board of Directors has authorized a share repurchase program under which we may repurchase up to \$50.0 million of our common stock, although no more than \$25.0 million may be purchased in any calendar year. We repurchased \$7.8 million of our common stock under the share repurchase program as of June 30, 2005 and plan to repurchase an additional \$5.0 million during the third quarter to offset the dilutive effect of the issuance of shares under our employee stock option plans. We have financed the repurchases and expect to finance additional repurchases through the proceeds from the issuance of common stock under our stock option plans.

Management believes that cash flow from operations, including accounts receivable sales, cash and cash equivalents on hand and available borrowing capacity under our senior credit agreement will be adequate to meet our anticipated operating working capital requirements, debt service, funding of capital expenditures and common stock repurchases in the foreseeable future.

Off-Balance Sheet Arrangements

We have an accounts receivable sales agreement pursuant to which we and certain of our subsidiaries sell on an ongoing basis certain accounts receivable to CONMED Receivables Corporation ("CRC"), a wholly-owned, bankruptcy-remote, special-purpose subsidiary of CONMED Corporation. CRC may in turn sell up to an aggregate \$50.0 million undivided percentage ownership interest in such receivables (the "asset interest") to a bank (the "purchaser"). The purchaser's share of collections on accounts receivable are calculated as defined in the accounts receivable sales

agreement, as amended. Effectively, collections on the pool of receivables flow first to the purchaser and then to CRC, but to the extent that the purchaser's share of collections may be less than the amount of the purchaser's asset interest, there is no recourse to CONMED or CRC for such shortfall. For receivables which have been sold, CONMED Corporation and its subsidiaries retain collection and administrative responsibilities as agent for the purchaser. As of June 30, 2005, the undivided percentage ownership interest in receivables sold by CRC to the purchaser aggregated \$46.0 million, which has been accounted for as a sale and reflected in the balance sheet as a reduction in accounts receivable. Expenses associated with the sale of accounts receivable, including the purchaser's financing costs to purchase the accounts receivable were \$0.8 million in the first half of 2005 and are included in interest expense.

There are certain statistical ratios, primarily related to sales dilution and losses on accounts receivable, which must be calculated and maintained on the pool of receivables in order to continue selling to the purchaser. The pool of receivables is in full compliance with these ratios. Management believes that additional accounts receivable arising in the normal course of business will be of sufficient quality and quantity to meet the requirements for sale under the accounts receivables sales agreement. In the event that new accounts receivable arising in the normal course of business do not qualify for sale, then collections on sold receivables will flow to the purchaser rather than being used to fund new receivable purchases. To the extent that such collections would not be available to CONMED in the form of new receivables purchases, we would need to access an alternate source of working capital, such as our \$100 million revolving credit facility. Our accounts receivable sales agreement, as amended, also requires us to obtain a commitment (the "purchaser commitment"), on an annual basis, from the purchaser to fund the purchase of our accounts receivable. The purchaser commitment was amended effective October 20, 2004 whereby it was extended for an additional year under substantially the same terms and conditions.

Contractual Obligations

The following table summarizes our contractual obligations for the next five years and thereafter (amounts in thousands). There were no capital lease obligations as of June 30, 2005:

		Payments Due By Period											
	Total	Less than 1 Year								3-5 Years		1	More than 5 years
Long-term debt	\$ 273,543	\$	4.121	\$	45,665	\$	66,054	\$	157,703				
Purchase obligations	70,440	φ	70,120	φ	132	φ	188	φ	157,705				
Operating lease obligations	12,592		2,748		4,988		3,015		1,841				
Total contractual obligations	\$ 356,575	\$	76,989	\$	50,785	\$	69,257	\$	159,544				

In addition to the above contractual obligations, we are required to make periodic interest payments on our long-term debt obligations. (See additional discussion under "Liquidity and Capital Resources").

New accounting pronouncements

See Note 11 to the Consolidated Condensed Financial Statements for a discussion of new accounting pronouncements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no significant changes in our primary market risk exposures or in how these exposures are managed during the three and six month periods ended June 30, 2005. Reference is made to Item 7A. of our Annual Report on Form 10-K for the year-ended December 31, 2004 for a description of Qualitative and Quantitative Disclosures About Market Risk.

Item 4. Controls and Procedures

An evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended ("Exchange Act")) was carried out under the supervision and with the participation of the Company's management, including the Chairman and Chief Executive Officer and the Vice President-Finance and Chief Financial Officer ("the Certifying Officers") as of June 30, 2005. Based on that evaluation, the Certifying Officers concluded that the Company's disclosure controls and procedures are effective to bring to the attention of the Company's business in its periodic filings with the Securities and Exchange Commission. There have been no changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended June 30, 2005 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

Reference is made to Item 3 of the Company's Annual Report on Form 10-K for the year-ended December 31, 2004 and to Note 10 of the Notes to Consolidated Condensed Financial Statements included in Part I of this Report for a description of certain legal matters.

Item 2. Issuer Purchase of Equity Securities

The following table provides information about Company purchases of equity securities that are registered by the Company pursuant to Section 12 of the Exchange Act during the quarter ended June 30, 2005:

ISSUER PURCHASES OF EQUITY SECURITIES

Period	(a) Total Number Of Shares Purchased	(b) Average Price Paid per Share ¹	(c) Total Number of Shares Purchased as Part of Publicly Announced Programs ²	(d) Approximate Dollar Value of Shares that May Yet Be Purchased Under the Program
April 29, 2005 – April 30, 2005	15,402	\$ 29.11	15,402	\$ 49,552,000
May 1, 2005 – May 31, 2005	238,468	30.66	238,468	42,241,000
June 1, 2005 – June 30, 2005	—	—	_	42,241,000
Total	253,870	\$ 30.56	253,870	

¹ Average price paid per share includes cash paid for commissions.

 2 On February 15, 2005, the Company announced that its Board of Directors authorized a share repurchase program under which it may repurchase up to \$50.0 million of the Company's common stock, although no more than \$25.0 million may be purchased in any calendar year. There is no expiration date governing the period over which the Company can make its share repurchases under the \$50.0 million share repurchase program.

Item 4. Submission of Matters to a Vote of Security Holders

The annual meeting of stockholders of CONMED Corporation was held on May 17, 2005 (the "Annual Meeting"). Holders of Common Stock were entitled to elect seven directors. On all matters which came before the Annual Meeting, holders of Common Stock were entitled to one vote for each share held. Proxies for 26,935,399 of the 29,399,296 shares of Common Stock entitled to vote were received in connection with the Annual Meeting.

The following table sets forth the names of the seven persons elected at the Annual Meeting to serve as directors until the first annual meeting of stockholders following the end of the Company's fiscal year ending December 31, 2005 and the number of votes cast for, against or withheld with respect to each person.

Election of Directors

Director	Votes Receiv	Votes Withheld

CERTIFICATION PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Eugene R. Corasanti, certify that:

- 1. I have reviewed this quarterly report on Form 10-Q of CONMED Corporation;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
